About Dissertation Editors

Editing doctoral research prior to publication is an important aspect of scholarly writing. Editors typically perform the following functions as part of the editing process:

- **Grammar and Proofreading** includes the proofreading and checking of grammar and mechanics. Spelling, punctuation, sentence structure, verb tense, word choice, pronoun referents, passive voice, clarity, and parallel and vague terminology is noted. Run-on sentences and fragments are corrected. Suggestions are made for structural coherence, transitions, and document flow.

- **Style and Format Editing** of the document is reviewed. Consistency, in text citations, parenthetical documentation, margins, headings, spacing, numbered or bulleted lists, figures and tables, appendices, and reference list formatting are corrected. Formatting using APA sixth edition guidelines must be utilized.

- **Citation to Reference Verification** is made and noted when citation are not in the reference section and reference are not in the body of the paper as citations.

- **University Specific Formatting** is included when the Doctoral Research Guide/guidelines are provided to the editor.

Editors do not change the integrity or meaning of the content, generate content, or delete portions of the content. Editors do not add missing information in reference sections but do note when additional information is needed.

Choosing an Editor

When choosing an editor:

- Discuss your specific needs and requirements (e.g. editor’s availability, turnaround time)
- Ensure that the editor can meet your due date.
- Review the cost and get the agreement in writing. Editors are paid up front.
- Ensure the editor stands behind his or her work.
- Know exactly what you’ll receive for your money.
- Use Skype to interview the potential editor.
- As follow-up, set-up talk-time by phone to make a better informed decision.
When a student works with an editor it is important that the editor is provided with a copy of the appropriate formatting requirements from the AUO Doctoral Research Guide and that the editor knows that APA sixth edition is the standard. AUO formatting requirements that deviate from APA sixth edition are noted within the AUO Doctoral Research Guide as well.

- The most important rule of style in Strunk and White’s *Elements of Style* is Rule 17:
  - “Omit needless words.” Strunk explains:
    - Vigorous writing is concise. A sentence should contain no unnecessary words, a paragraph no unnecessary sentences, for the same reason that a drawing should have no unnecessary lines and a machine no unnecessary parts. This requires not that the writer make all his sentences short, or that he avoid all detail and treat his subjects only in outline, but that every word tell.

Experience

- As a freelance writer, editor, librarian, educator and designer, I have more than 15 years of experience in making literature (in all its manifestations) more comprehensible and more accessible not only to specialist constituencies but also to the public at-large. I possess a thorough understanding of knowledge's "life- cycle": how, through the written word, knowledge is created, framed, disseminated, discovered, interpreted, organized, preserved and—most critically—utilized so as to create new knowledge. Most importantly, I am committed to sharing this understanding by giving others as many opportunities as possible to participate in that same process. I have a Master's Degree in Library and Information Science (MLS) from the University Of North Texas and a Master of Fine Arts (MFA) in Writing from the California Institute of The Arts. I have been working with Argosy students as a university-approved editor since 2011.

Approximate Turnaround Time

- Typical turnaround time for a dissertation-length mss. (app. 120 pages) is between 10 to 14 business days, depending on the number and type of services requested. I'm afraid I cannot offer rush processing, except in very special circumstances.
- Clients please need to be aware that they should allow themselves between 5 and 7 business days to review my edits and accept all the changes I suggest. (In other words, clients should please factor their own time in addition to mine vis-a-vis presenting final copy to their committees and / or advisors.)

Basic Fee Structure

- Per page (as specified above).
